

Omro Fitness Trail – A Special Thanks To Our Supporters!

Elbert Green Hubbard, an American Philosopher, wrote, “The world is moving so fast these days that the man who says it can't be done is generally interrupted by someone doing it”. The following individuals and organizations have given up time, labor, equipment, and/or money to provide resources for the completion of the Omro Fitness Trail. Their efforts are appreciated and a direct testimony to their ability to make things happen within our community!
